### HOW TO GAIN TECH ADOPTION AND OPTIMISE OPERATIONS

#### Focus on user experience

- Easy to use - no training required.
- Tap-on-tag to access forms.
- Data feedback provides actionable information in real time.

#### Tech enabling fast deployment and iteration

- The EXTAG system can be set up fast and provide immediate value to your operation.
- Ideas for improvement can be implemented quickly - within days, not months.
- Empowers the end users to adopt and adapt EXTAG to their needs.

**Technology** enables transformation.  
**People** have ideas.  
**EXTAG** makes it happen.

### Traditional 'Top Down' Approach

Extensively plan and predict innovation, and hope you get it right the first time.

### EXTAG 'Bottom Up' Approach

Digitise what you currently do, and then iterate often and fast to discover innovation.
