

Safety Direct Solutions – Medical Services

Proven Experience

With over 19 years of experience and expertise, combined with an operational infrastructure across Australasia, SDS has successfully partnered with many international and local oil and gas resource, and mining corporations, government, and not-for profit agencies to provide world class health and medical services.

Through the provision of high-quality, responsive delivery of healthcare, the SDS team deliver excellence in the following:

- Emergency health services and transportation of critically ill and injured patients by ambulance.
- Emergency health services using rotorcraft or fixed-wing aircraft.
- High-risk, large-scale event medical planning and risk assessments.
- Clinical oversight, including medical tele-consultation sessions and support, to remote and complex environments.
