

QUAD CHART

Electromek is a South Australian SME focused on design and supply of electronic systems, mechanical hardware, and thermal management solutions for defence, railway and industrial markets across Australia, New Zealand and beyond.

PURPOSE

We know that defence systems must perform under the harshest of conditions and our purpose is to help our customers find the most durable and user-friendly Electronic and Mechanical Hardware possible.

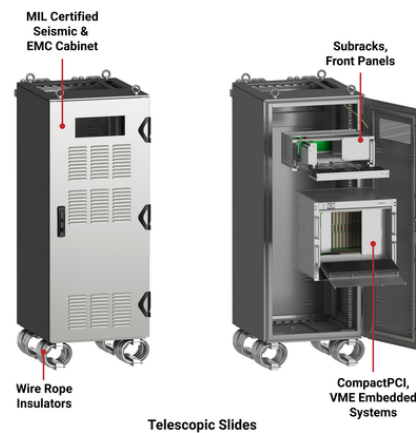

Our team has over 25 years of experience providing shock resistant and remote-friendly Electronic racks and accessories, designed to take a beating.

Let Electromek help you build Electronic and Mechanical Hardware that will withstand even the most rigorous conditions.

CAPABILITIES

We are the preferred design and supply partner of nVent Schroff electronics enclosure protection products and equipment; Jonathan Engineering Solutions rugged rack-mounting solutions; and SKB transportable rack cases.

We know these products and understand how they will perform in the field.
