# Background

Latrobe City has a long history of engineering excellence built on a significant local industry of coal-powered electricity generation; open cut mining operations, oil and gas exploration and extraction, pulp and paper manufacturing, agribusiness and associated support industries.

These activities continue to shape the industrial landscape and forge a region built on innovation, specialist skills, resource utilisation, project delivery and effective environmental management. A key strength of the region is the capability of the local workforce and its specialised engineering knowledge, skills and experience.

Latrobe City, one of Victoria's four major regional centres, covers 1,422 square kilometres and is located approximately 150 kilometres east of Melbourne, and is accessible to national and international markets via existing transport infrastructure. Specialist businesses provide industrial manufacturing and engineering services to meet the needs of major industrial organisations.

The Latrobe City Defence Alliance has been established to showcase the world-class engineering and manufacturing capability of industry in Latrobe City. The profile is available online via Council's website at

[www.latrobe.vic.gov.au/defence](http://www.latrobe.vic.gov.au/defence)

LATROBE  
CITY

# Latrobe City Industry Capabilities

Today's industry expertise represents a journey that commenced in 1894 with the discovery of brown coal in the area.

Businesses that enabled the growth of the energy sector in Victoria exemplify the specialist knowledge and skills that combine to deliver customised solutions that are tailored to meet client needs. Critical to this is the understanding of the need for quality, precision, responsiveness, reliability and accountability, and their impacts on a project outcome.

The specialist businesses showcased within this publication represent a snapshot of skills and capability available and ready to support the Defence supply chain. Project-based design, engineering, manufacturing and maintenance service are what this region is known for and built upon.

Latrobe City is a significant driver of the Victorian economy, contributing over \$5.86 billion in Gross Regional Product.

The region's engineering and manufacturing sector supplies major industry, including:

- AGL Loy Yang A 2210 Megawatt power station and open-cut brown coal mine
- Alinta Energy Loy Yang B 1000 Megawatt power station
- Energy Australia 1480 Megawatt power station and open-cut brown coal mine
- Australian Paper Maryville Mill
- Mahindra Aerospace, the only commercial aircraft manufacturer in Australia
- RAAF Base East Sale, home to approximately 700 defence personnel
- ExxonMobil's Longford gas and crude oil plants
- ExxonMobil's 23 offshore platforms and installations in Bass Strait

Our skilled tradespeople and workforce has contributed to building the nation with the rollout of road projects, establishment of power generation facilities as well as water, rail and gas projects. A network of business services offer expertise in the design and development of specialist equipment for the mining and major construction sectors.

Our workforce understands heavy industry fabrication requirements from start to finish - from commissioning of specialist equipment to providing assistance and service to better manage equipment fatigue.

Industry in Latrobe City are the innovators, designers, engineers and manufacturers at the forefront of supporting Australia's mining and resource infrastructure development and ongoing operations. Our large skilled workforce are primed to transition it's long history of advanced manufacturing into supporting the defence supply chain.

# Statement

“Latrobe Valley has had a long history of engagement with defence industry and the Australian Defence Force (ADF). RAAF Base East Sale is the home to some 700 defence personnel.”

“As Victoria’s Defence Industry Advocate I have had the pleasure of visiting Latrobe City on a number of occasions. It’s been uplifting to meet so many skilled tradespeople and other members of the Latrobe City workforce. I acknowledge, too, the support provided by representatives of Latrobe City Council not only to myself but also to companies in the region undertaking work supporting the Australian Defence Force (ADF). Latrobe City is well known for its major contribution to meeting Victoria’s energy needs. The specialist skills and expertise garnered over many decades in this critical industry domain has direct relevance to the future requirements of Australia’s defence industry. This includes, for example, making a major contribution to AUKUS, including design, development, construction and through-life-support of the nuclear submarine program. Latrobe City companies will over time play a role in meeting the ADF’s artificial intelligence, cyber, robotics and other advanced technology requirements so critical to the success of AUKUS. Federation University, based in Latrobe City and TAFE sectors will play an important role engaging with these companies in addition to educating the workforce for the future.

As the Hon Ben Carroll MP, Minister for Industry Support and Recovery announced at the 2022 Victorian Manufacturing Hall of Fame Awards, Victoria is the epicentre of Australian advanced manufacturing and destination of choice for trailblazing companies. These include outstanding companies in Latrobe City.”

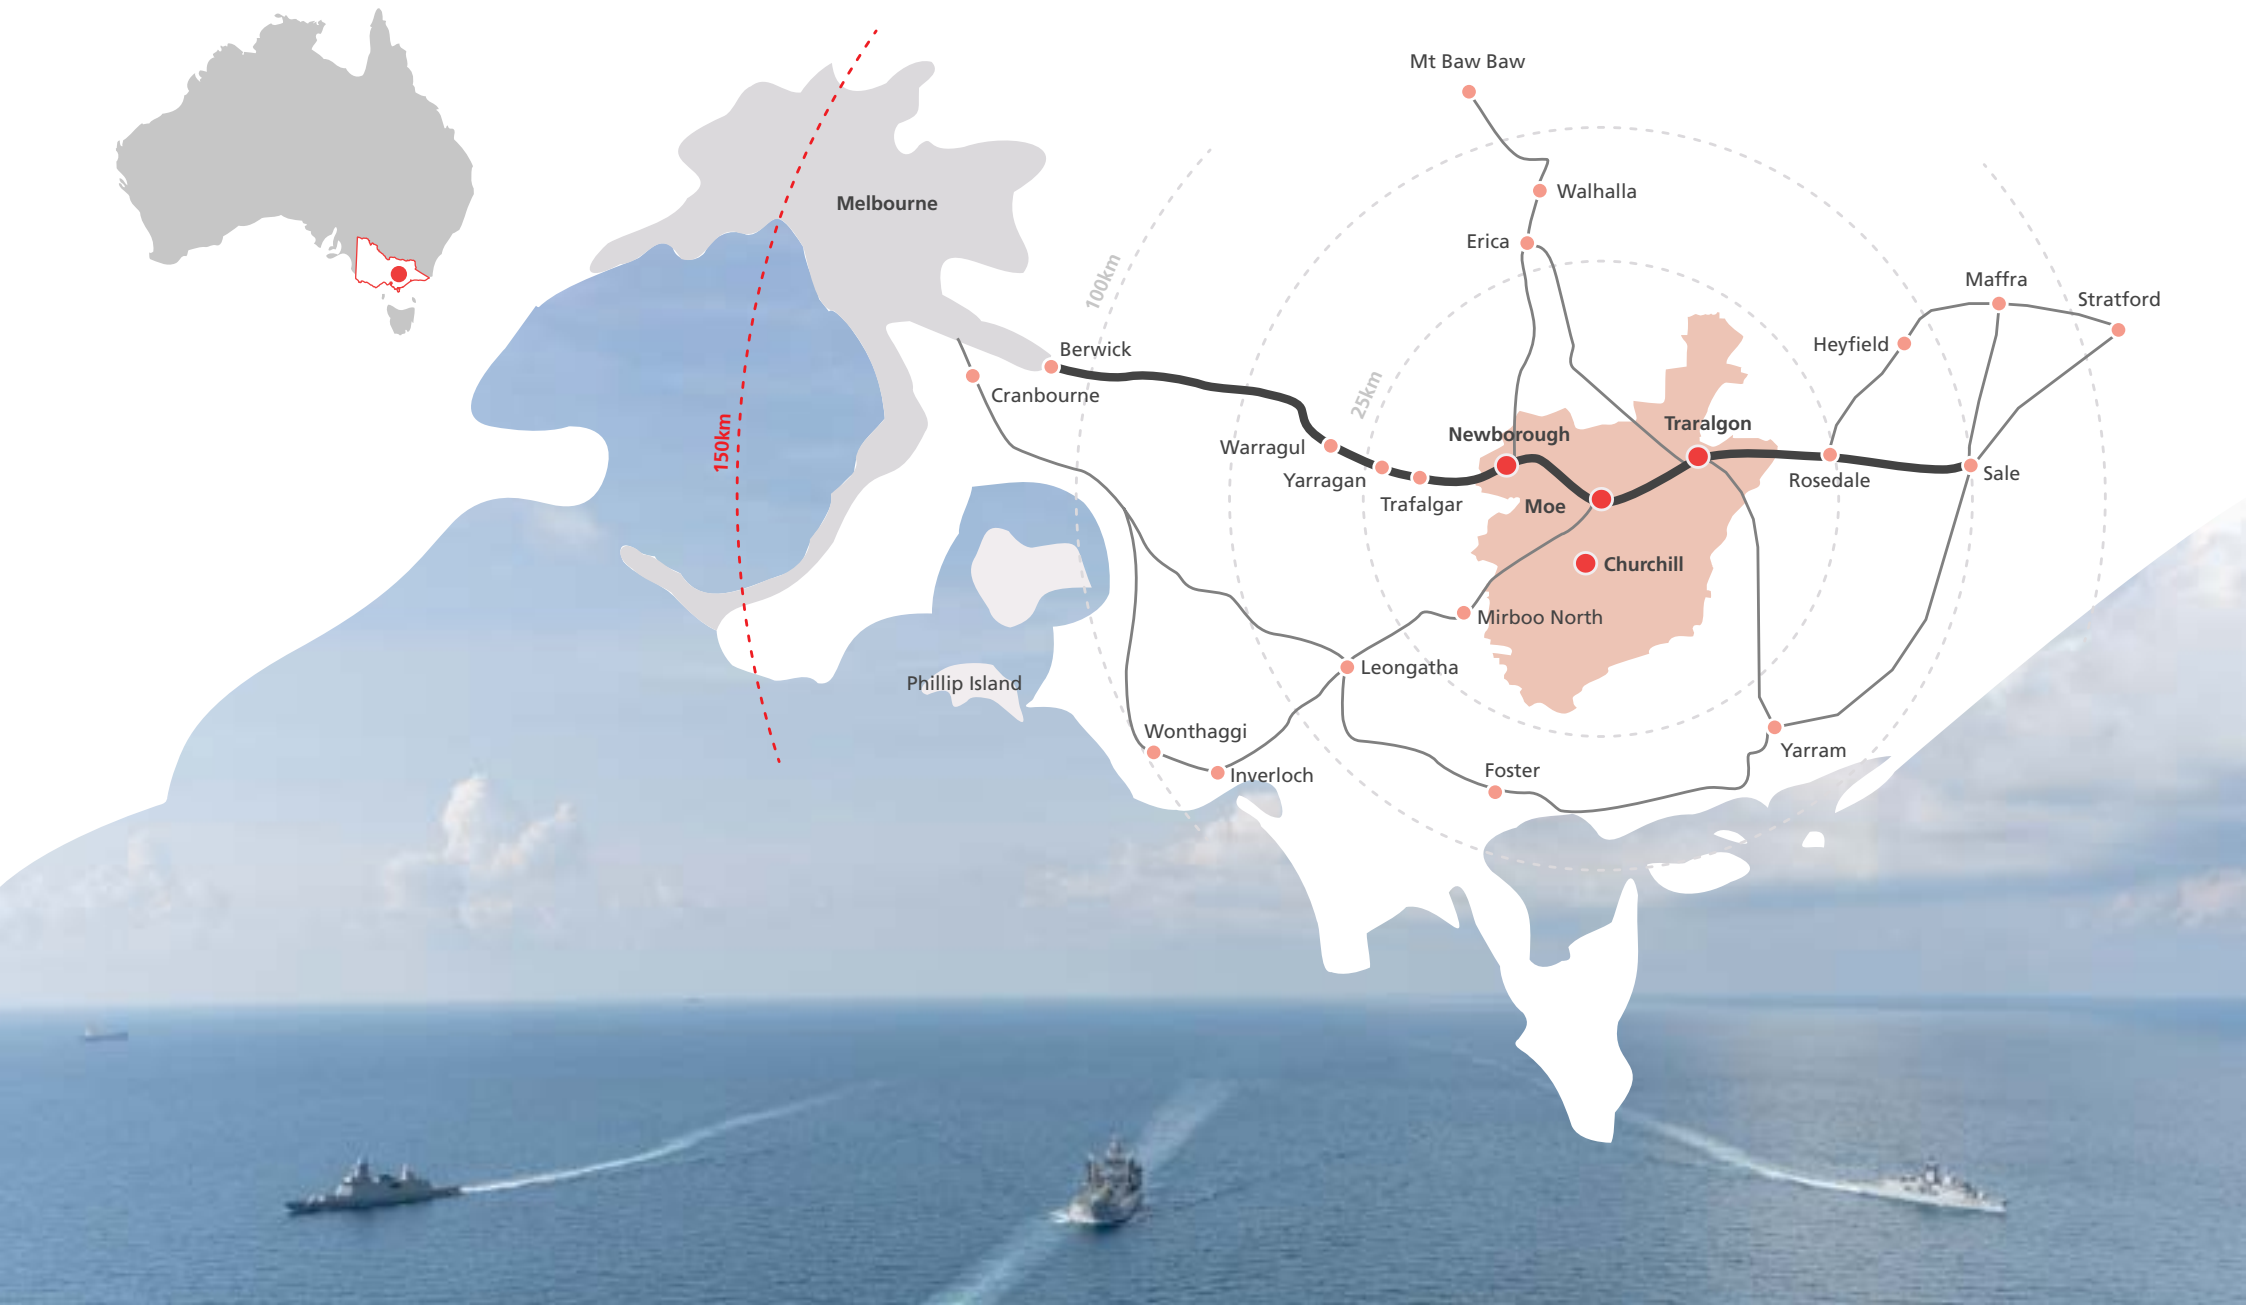

**John O’Callaghan**

John (Johnno) O’Callaghan is the Victorian Defence Industry Advocate and Chair of the Defence Council Victoria and Defence Science Institute Advisory Board.

# Adra Engineering

## COMPANY OVERVIEW

Adra Engineering is a multidiscipline Engineering Services company based in Traralgon Victoria, servicing our clients Australia wide. We are driven by the success of our employees, clients and partners.

We believe in partnering with our clients to provide engineering and design drafting outcomes.

## KEY CUSTOMERS/PARTNERS

- Liquip for Holmwood Highgate (purchaser), Rheinmetall Defence (prime) and Australian Defence Force (purchaser). Vessel design, analysis and certification
- Refuel International
- Alinta
- BAE
- Boeing
- AGL
- Graymont
- Service Stream
- Ventia

## CAPABILITIES

- Engineering Design Analysis, Computations and Reporting:
- Structural Engineering
- Civil Engineering
- Mechanical Engineering
- Electrical Engineering
- Design / Drafting
- Detailing
- Drawing Systems Management
- 3D Modelling and Animations
- Asset and Compliance Inspections
- Certification
- Remedial Works and Re-Certification of Existing Designs

## DISCRIMINATORS

- Finite element analysis (FEA)
- Direct to additive manufacturing/3D printing
- 3D scanning

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- All work is endorsed by our ISO 9001, ISO 45001, ISO 14001 Integrated Management System
- Environment and Health and Safety Management Systems certified to the latest ISO standards.

## CONTACT DETAILS

# AsClear

## COMPANY OVERVIEW

AsClear is an industry leader in providing in-house and on-site specialised services in abrasive blasting and coating of structural steel and pipelines, as well as concrete repair, remediation and sealing.

## KEY CUSTOMERS/PARTNERS

- ExxonMobil
- Viva Energy
- APA Group
- Inductabend
- Quality Site Welding
- LendLease
- Wood Group
- National Australian Pipelines
- Ferguson Civil
- Deakin University
- Universal Corrosion Control
- DENSO
- Dulux
- International Paints
- Specialty Polymers Coatings
- Australian Corrosion Association
- Painting Contractor Certification program
- NACE International

## CAPABILITIES

- Industrial painting/coatings
- Asbestos removal
- Asbestos storage

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- ISO 9001:2015
- AS/NZ 4801
- Asbestos Removal License– H03/01620

## DISCRIMINATORS

- Transportable abrasive blasting/transportable high-build epoxy application
- Asbestos removal and immediate re-coating
- ARO (abrasion resistant overlay)
- Pipe coating machine – 100mm –1200mm in diameter; up to 18m in length
- Jet fuel pipeline specialisation
- A-class removal licence

# AusVic

## AUSVIC

### COMPANY OVERVIEW

AUSVIC is a hands-on family-owned business, operating since 1999, specialising in protective coatings.

Offering a full lifecycle service including corrosion inspection, surface preparation, protection and control, as well as fire proofing; from specification and design to procurement, construction and maintenance.

### KEY CUSTOMERS/PARTNERS

- Alinta Energy (Loyang B)
- AGL
- Jemena (Northern Gas Pipeline)
- Orbost (Gas Plant Upgrade)
- Opal (Aust. Paper Mill)
- Snowy Hydro
- Fulham Correctional Centre (Jail cell refurb)
- Monash City Council (Bus Depot)
- Dulux preferred partner

### CAPABILITIES

- Abrasive Blasting
- Surface and Corrosion Inspection and Maintenance
- Fire Proofing
- Commercial Coatings and Painting

### DISCRIMINATORS

- Certified NACE Coatings Inspection
- Short Timeframe Emergency Callout and Planned Work
- 2600 hours of Manpower available per week
- Guaranteed Delivery on or ahead of schedule
- 12,000 square metre facility
- 2 x 20 Tonne Mobile Cranes

### QUALITY STANDARDS AND OTHER ACCREDITATIONS

- ISO 9001
- ISO 45001
- Certified NACE Coatings Inspection

### CONTACT DETAILS

**Steven and Andrew Pugliese**

# BMC Group

## COMPANY OVERVIEW

BMC Group (BMC) is a privately owned company located in Morwell Victoria, which includes:

- BMC Welding and Construction
- BMC HV, Electrical and Instrumentation
- BMC Civil

The BMC Group of companies deliver a raft of mechanical, HV/LV electrical and civil services underpinned by it's quality and safety standards.

As a single point of contact, BMC can offer our client the benefits of many years experience across a range of industries to provide a turnkey solution for any work environment.

## KEY CUSTOMERS/PARTNERS

- Alinta - mechanical and electrical maintenance
- ExxonMobil - offshore, LIP and LFG high voltage electrical maintenance
- Ausnet - transmission and distribution primary maintenance
- APA Group - mechanical and electrical service agreements
- EnergyAustralia - high voltage electrical maintenance
- AGL - mechanical and high voltage electrical maintenance
- Engie - high voltage electrical maintenance
- Opal - high voltage electrical maintenance
- DELP - Road
- Lochard Energy - mechanical and civil service agreements
- White techniques
- Zinfra Group
- Monodelphous

## CAPABILITIES

- Carbon and exotic steel fabrication
- Piping services including off-site fabrication
- Mechanical equipment maintenance
- Electrical systems maintenance
- Civil works including concrete and excavation
- Scaffolding services and machining

## DISCRIMINATORS

- In-house capability to facilitate large scale infrastructure upgrades and maintenance projects, with specialised trade skills, project managers and plant equipment such as excavators, graders, bulldozers to facilitate an entire project
- Expertise in highly corrosive and marine environments
- Complex weldments and assemblies (size and location)
- Weld procedure development and proving
- High-pressure pipework welding
- Sub-surface spool fabrication and installation
- Dissimilar metal fusion/welding
- Construction specialist, offering turnkey service across mechanical, electrical and civil divisions

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

ISO Accredited

- ISO 45001 OHS certification
- ISO 14001 Environmental certification
- ISO 9001 Quality certification

## CONTACT DETAILS

**Mal Stasinowsky / John Monteleone**  
Managing Director

**Damien Kiss**  
Mechanical Operations Manager

**Eric Barclay**  
Electrical Operations Manager

**Christopher Monteleone**  
Mechanical Superintendent/Project Manager

**Address** 6 Minchington Road, Morwell, VIC, 3841

**Phone** +61 3 5135 6211

**Website** [www.bmcgroup.com.au](http://www.bmcgroup.com.au)

**Ventia**  
HV switchgear maintenance and testing  
(Sale RAAF base)

# Delfab Engineering

## COMPANY OVERVIEW

Delfab specialise in the manufacture of all types of process equipment. They service a diverse range of industries including power, mining, gas and oil, and all forms of government infrastructure across Australia.

- Specialised high-quality welding using various processes covering all material types
- Manufacturing a wide range of carbon, stainless and alloy components in both heavy and light sections
- Plate formation, pressing and section rolling, bending, drilling, punching and milling

## KEY CUSTOMERS/PARTNERS

- AGL
- Downer
- Energy Australia
- Australian Paper
- Alinta Energy
- Beach
- Saputo Dairy Australia
- Victorian Government
- Surdex Steel
- Midway Metals
- Boltco
- GB Galvanising
- Hardox Wearparts

## CAPABILITIES

- Plate pressing
- Steel formation
- Steel fabrication
- Laser cutting
- Blasting and painting
- Process piping

## DISCRIMINATORS

- Two equipped workshop facilities
- Dual - 20 ton overhead crane
- Plasma cutting Truedge 3 XPR Connect - plasma cutting machine with pipe processing capabilities

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- ISO 9001:2015

## CONTACT DETAILS

**Website** [www.delfab.com.au](http://www.delfab.com.au)

# Federation University

## COMPANY OVERVIEW

With campuses in Ballarat, Gippsland, Berwick, the Wimmera and Brisbane, Federation University provides undergraduate and graduate-level research, education and consultancy services specialising in:

- Cybersecurity: advanced analytic techniques for cyber-crime and big data issues
- Engineering: additive manufacturing (3D metal printing), carbon technology research, mechatronics engineering, energy and renewables
- IT: novel pattern-matching techniques, communications and signal processing, forensic data digital imaging
- Health: digital mental health and wellbeing, sport and injury prevention
- Agriculture/climate ecology: environmental practice and investment, animal-human health, climate ecology and diagnostics, bushfire and natural disaster recovery

## CAPABILITIES

- Mechatronics and reliability engineering
- Geo-hydrological (climate change)
- Bio-mechanical / human performance
- Additive manufacturing – carbon technology (activated carbon, carbon fiber)
- Sensor technology (processing and ai)
- Digital Innovation
- Geospatial visualisation and mapping.
- Internet commerce security, threat profiling, forensics, fraud detection, infrastructure security
- R&D in new energy (hydrogen)

## DISCRIMINATORS

- Recipient of three successive grants from US Airforce (AFOSR/ AOARD)
- Multi-location Aboriginal Education Centre (Gippsland, Berwick, Ballarat, Wimmera)
- \$2.3m carbon technology research centre
- Charchar lab – genomics research
- Internet commerce security laboratory (key partners Victorian Government, Westpac and IBM)
- IT research centres: multi-media and forensic data analysis (AFP) - intel and national security
- Kinaway - indigenous chamber of commerce partnership
- Technology parks - Ballarat
- Technology Park - Gippsland
- Hi-Tech Precinct

## KEY CUSTOMERS/PARTNERS

- US Airforce
- AFP
- CSIRO
- Victorian Government
- Department of Industry, Innovation and Science
- Defence Science Institute
- Advanced Manufacturing and Growth Centre (AMGC)
- Energy Australia
- AGL
- Downer Group
- J Power
- Opal Australian Paper
- ASIC
- Rio Tinto
- Telstra
- IBM
- ACi

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- RTO with Australian Skills Quality Authority (ASQA)
- Registered with Tertiary Education Quality and Standards Agency (TEQSA)

## CONTACT DETAILS

# Firmins Lane Engineering

## COMPANY OVERVIEW

Provides machining, fitting and fabrication services. With decades of experience, we aim to supply our clients with quality work, supplied on time and within budget.

- Light to heavy machining
- Gearbox refurbishment
- Valve overhauls
- Spare parts manufacture
- Trade labour hire
- Project management

## KEY CUSTOMERS/PARTNERS

- Origin Energy
- AGL
- Alinta
- Toshiba
- GE
- Snowy Mountain Hydro
- Siemens
- AsClear
- Gippsland Bearing Supplies
- RTL Boltco
- Vulcan Engineering Steels
- Voestalpine HPM
- Bob Haslam Engineering
- Australian Steel
- Harvest Engineering
- AMAC Alloys
- Overall Forge
- ACPL

## CAPABILITIES

- Mecof CNC bedmill (6300 x 1200mm)
- TUDA Lathe (7000mm between centres)
- Vertical borer (4,500mm max turning diameter and 2000mm under the tool, 36t weight capacity)
- Overhead cranes (1 x 20t and 1 x 10t – 10m clearance under the hook)
- 200t roll frame press

## DISCRIMINATORS

- Large vertical borer (4500mm max turning diameter, up to 40 tonne on chuck)
- Portable clean room conditions (6.3m x 3.5m x 3.6m high)
- Turbine control valves
- 24/7 operations

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- AS/NZS ISO 9001:2015
- ISO 45001:2018

# Genertech

## COMPANY OVERVIEW

Electric motor/generator repair and overhaul business in the Latrobe Valley, with over 15 years experience.

## KEY CUSTOMERS/PARTNERS

- Toshiba
- GE Renewable Energy – Overhaul and Repair of Hydro and Wind Generators.
- Snowy Hydro
- Energy Australia - Supply, Overhaul, Repair, Rewinding of Low Voltage and High Voltage Electrical Motors from 1.5kW to 2500kW.
- AGL
- Australian Paper
- Downer - Rewinding of a 500Mw, 16500v, 3Ph, 50Hz, Generator
- Alinta Energy - Supply, Overhaul, Repair, Rewinding of Low Voltage and High Voltage Electrical Motors from 1.5kW to 8500kW
- Liberty One Steel
- Siemens
- Bluescope Steel
- Statewide Bearings
- Associated Gaskets
- ABB Limited
- Weg Australia
- Regal Beloit

## CAPABILITIES

- High voltage motor rewinds and testing
- Repairs in low, medium, high rotating electrical equipment: DC motors and generators, AC synchronous machines and AC electric motors
- Experience across all major electric motor OEMs

## DISCRIMINATORS

- Mechanical and electrical testing - 12v to 11000v, 0.18kW to 8500 kW
- Certified ANZEx service facility: authorised to overhaul rewind and repair hazardous area (ex) electric motors
- 2000m2 under roof workshop - lifting capacity of 100 tonnes - clearance of 11m under hook

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- ISO 14001:2015
- ISO 9001:2015
- ISO 45001
- ANZEx 17.2002

## CONTACT DETAILS

# Gippsland CNC Cutting

## COMPANY OVERVIEW

Manufacturer and custom sheet metal fabricator with a specialisation in rapid delivery throughout our plate stock range.

- CNC laser cutting
- CNC plasma cutting
- CNC oxy/prole cutting
- CNC pressbrake folding
- Welding
- Drilling and tapping
- Pipe bending
- Sheet rolling

## KEY CUSTOMERS/PARTNERS

- LendLease
- SafeTech
- Yallourn Energy
- Australian Paper
- Kiel Industries
- TradeWeld
- JBI Engineering
- Selection Steel
- Bluescope Steel
- Midway Metals
- Surdex Steel

## CAPABILITIES

- 4kW lvd bre laser 4mx2m - up to 20mm mild steel
- LVD pressbrake 220t 8 axis cnc 4.3m long
- PCS5000hd 24m rail twin head - up to 30mm mild steel
- 3D CAD modelling

## DISCRIMINATORS

- Continuous 300 tonne + stock onsite
- Overnight plate processing and delivery
- Plate cutting up to 20m in length

## CONTACT DETAILS

**Alan Cuthill**  
sales@gippslandcncutting.com.au

**Address** 3H Miners Way Morwell VIC 3840

**Phone** +61 3 5134 1007

# Hardchrome Engineering

## COMPANY OVERVIEW

Hardchrome Engineering has offered a wide range of engineering services to various Australian industries for the past 40 years. Without compromising on product and service quality, we offer competitive turnaround times and feasible pricing to ensure excellence in our engineering solutions

- Hardchrome plating
- Grinding and machining
- Nickel plating
- Hydraulic component repair and maintenance
- Polymeric, metallic and composite coating
- Heat treatment and nitriding

## KEY CUSTOMERS/PARTNERS

- RAAF
- RAN
- BAE
- Thales
- ASC
- DST(G)
- BHP
- Rio Tinto
- Glencore
- Joy Global
- Energy Australia
- Hydro
- AGL
- CSIRO
- Monash
- RMIT
- Swinburne

## CAPABILITIES

- CNC machining
- Hydraulic presses

## DISCRIMINATORS

- Signature reduction coatings
- Multiple cylindrical grinding machines (up to 4m long and 780mm diameter)
- Turbine lathes (10m) and hone (4m)
- Vertical and horizontal furnaces (2m deep)
- Largest shop-blast painting and machining capabilities in Australia
- Significant research and development investment – in-house and academia

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- ISO 9001:2015
- CASA Part 145 approved maintenance organisation

## CONTACT DETAILS

**Andrew Dugan**  
Manager/Director  
andrew@hardchrome.com.au

**Address** 175 Wellington Road North Clayton VIC 3168

**Phone** 0419 371 591

**Website** [www.hardchrome.com.au](http://www.hardchrome.com.au)

# Hydro Australia

## COMPANY OVERVIEW

Hydro Australia is the Australian division of the Hydro Group of Companies (head office is in Chicago, Illinois, USA). The company is recognised as the largest independent pump repairer in the world.

- Removal, overhaul, refurbishment, upgrading and reinstallation of pumps, commissioning with full engineering support

## KEY CUSTOMERS/PARTNERS

- AGL
- Energy Australia
- Origin Energy
- Mobil
- Esso
- Woodside
- Shell
- Siemens
- Rio Tinto
- Australian Paper
- Downer Engineering
- Melbourne Water
- Vermilion Oil and Gas
- Hardchrome
- Australian Surface Technologies
- John Crane Seals
- Flow Serve Seals

## CAPABILITIES

- Engineering solutions improving upon energy savings and cost efficiency (vs pure part replacement)
- Expert engineering analysis of pumps and pumping systems
- Reverse engineering solutions
- Solution-based fault finding

## DISCRIMINATORS

- 3-D laser scan roamer arm
- Sensor-based condition monitoring (vibration, pressure, speed, temperature) and reporting and analysis
- High speed laser cladding
- Insitu testing of pumps
- Dynamic balancing to high tolerance
- In-house engineering expertise and resources (4 engineers)
- Significant global reach-back via the Hydro Group global footprint

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- ISO 9001:2015
- OHSAS 18001:2007
- AS/NZS 4801:2001

## CONTACT DETAILS

**Michael Cooper**  
michael@hydroAustralia.com.au

**Address** 8 Minchington Road Morwell VIC 3840

**Phone** +61 3 5165 0390

**Mobile** 0402 844 683

**Website** [www.hydroaustralia.com.au](http://www.hydroaustralia.com.au)

# JB Engineering

## COMPANY OVERVIEW

JB Engineering is a professional engineering and civil services company providing a wide range of engineering and construction services across Victorian industry sectors, and backed by over 30 years of experience.

- Fabrication and installation structural steel components, including gantries
- Mechanical/piping fabrication and installation
- Mechanical maintenance/shutdown works
- Fabrication and installation of steel panels, equipment, handrails, platforms, staircases, walkways, pipe bridges, tanks and vessels, etc.
- Sheet metal and insulation works
- Excavation and civil works including all aspects of commercial and industrial concreting and structural concreting
- Design and construct

## KEY CUSTOMERS/PARTNERS

- Latrobe City
- Downer
- Australian Paper
- Gippsland CNC Cutting
- Gippsland Water
- AGL
- Alinta Energy
- CRRC
- Cross Yarra Partnerships
- Refuge Homes

## CAPABILITIES

- Shutdown support, including supply of safety advisors, trades, supervisors, tools and equipment
- Maintenance of multinational clients, large-scale plants and buildings
- Design and construction of infrastructure and structures
- Boiler making, steel fabrication, welding (mechanical, structural and sheet metal), carpentry
- Commercial and industrial projects such as offices, warehouses, terminals and factories
- Project management

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- ISO 9001:2015 DNVGL
- AS/NZS 4801:2001 DNVGL
- ISO 14001:2015 DNVGL
- Australian Steel Institute Member

## DISCRIMINATORS

- One-stop-shop for design, building, and project management - gain cost / time efficiencies
- All projects completed to strict quality assurance guidelines
- Highly skilled and knowledgeable workforce
- Projects delivered on time and on budget

## CONTACT DETAILS

**John Bailey**  
admin@jbiengineering.com.au

**Address** 9-15 Elizabeth Terrace Morwell VIC 3840

**Phone** +61 3 5133 7088

**Website** [www.jbiengineering.com.au](http://www.jbiengineering.com.au)

# Latrobe Regional Airport

## COMPANY OVERVIEW

Latrobe Regional Airport is home to Australia's only commercial aircraft manufacturing facility (Mahindra/ GippsAero's Airvan products)

- 100 Hectares of multi-use land available
  - Greeneld - 80 hectares
  - Services - 20 hectares
- Project management
- Capacity for autonomous vehicle testing
- Regional aerial fire fighting services base
- Part of the Latrobe City aerospace precinct - aviation, high tech, education and research

## KEY CUSTOMERS/PARTNERS

- Mahindra/GippsAero (120 employees on site)
- LV Airframes and welding
- Ambulance Victoria - helicopter ambulance and rescuer base
- Department of Environment, Land, Water and Planning
- East Coast Aviation and Rudi's Aero Engines
- Bureau of Meteorology
- Latrobe Valley Aero Club
- Aerial Extras
- Latrobe Valley Liteflight
- Airservices Australia
- Civil Aviation Safety Authority (CASA)
- Latrobe City Council

## CAPABILITIES

- Sealed runway - 1430m in length and 23m wide
- Pilot activated lighting (PAL)
- Precision approach path indicators (PAPI)
- Radio navigation aid, non directional beacon (NDB)
- GPS approaches
- Aviation fuel, AVGAS and JET A1 available

## DISCRIMINATORS

- Owned by Latrobe City Council - designated development zone
- Experience managing multiple tenants
- Hub for emergency services operations
- Strong academic partnerships

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- Civil Aviation Safety Authority (CASA) registered airport #007 (100% score on 2018 audit)
- Australian Airports Association Airport of the Year (2008)
- 100 per cent CASA current regulatory approval

## CONTACT DETAILS

# Latrobe Valley Enterprises

## COMPANY OVERVIEW

LVE is a social enterprise creating opportunities for people living with disabilities to thrive through sustainable and purposeful employment and, is able to assist organisations in meeting the requirements of the Social Procurement Framework.

LVE has been in business since 1967, 80 per cent of our services are provided by people living with disabilities.

LVE is always open to new opportunities.

Please email [office@lve.com.au](mailto:office@lve.com.au) or telephone 03 5134 1555 to check if your opportunity is a service LVE may be able to provide.

## KEY CUSTOMERS/PARTNERS

- Federal and State Government Departments
  - Services Australia
  - Department of Energy, Environment and Climate Action
  - Department of Justice
- Australia's largest power generators
  - AGL
  - Alinta
  - Energy Australia
- Large Metro and Regional Hospitals
- Marriot Environmental Services
- Victorian state-wide Telstra contract
- Water boards, City and Shire Councils:
  - Gippsland Water
  - Melbourne Water
  - Southern Rural Water
- Universities and schools Australia wide
  - Federation University
  - Melbourne University
  - Tafe Gippsland
- Waste management facilities
- Fire and ambulance services
- New Start (Indigenous Civil Construction)
- 3M

## CAPABILITIES

Our business units include commercially feasible services such as:

- Recycling & Secure Document Destruction
- Commercial Grounds & Facilities Maintenance
- Business Support Services
- Signmaking

## DISCRIMINATORS

- High-volume UV-resistant digital printing output (50 p/hr - only one in Australia)
- Industrial engraving and etching in one sign
- Social enterprise employing 70+ individuals with disabilities
- Only social enterprise in Australia manufacturing industrial signage
- Only social enterprise with 3M Diamond certification and Finsbury Green 3-Star Rating in Australia

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- ISO 19001: 2015 - Quality Management System
- ISO 14001: 2015 - Environmental Management
- ISO 45001: 2018 - Occupational Health & Safety
- Social Traders Certified
- 3M Diamond Certified
- Finsbury Green 3-Star Rating (Government Rated) NSDS AS/NZ 4801

# O&M Operations and Maintenance

## COMPANY OVERVIEW

Engineering asset management, operations and maintenance company in the industrial sectors.

- Electrical and mechanical engineering
- Electrical, instrumentation maintenance and project works
- Project and asset management
- Scaffolding and rigging
- Industrial cleaning
- Civil and drainage

## KEY CUSTOMERS/PARTNERS

- AGL
- Gippsland Water
- Energy Australia
- Latrobe City Council
- Engie
- Transeld
- Broadspectrum
- UGL
- Pacific Energy
- Graymont Sibelco
- MMS
- AWM
- LAYHER
- Delta Rent
- Gippsland Infrastructure

## CAPABILITIES

- Electrical design and construction
- Manufacture of switchboards, powerboards, control panel fitouts
- Complex scaffold solutions

## DISCRIMINATORS

- Fibreoptic Installation - Telstra approved
- PLC/SCADA and DCS programmers and operators (remote repair of automation systems)
- Exclusive 'laher scaffold system' provider
- One-stop-shop for scaffolding, electrical and mechanical engineering work
- Expertise and experience in operations and maintenance of plants

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- ISO45001:2018 - OHS
- ISO14001:2015 – Environmental
- ISO9001:2015 – QMS
- CM3 – Government Certification for Safety
- Inaugural Winners of the 2016 Engie John Robinson Memorial Health and Safety Award

# Outlook Industries Australia

## Oi

### COMPANY OVERVIEW

- Mechatronics R+D
- Manufacturer of the GUS UGV - Remote Reconnaissance and Surveillance platform
- Automation
- Fabrication

### KEY CUSTOMERS/PARTNERS

- Australian Defence Force: Contract for four "GUS" UGV for Army, with options for more
- African Parks Anti Poaching: Ongoing discussions for protecting rhino
- UK MOD: Discussions ongoing
- AXIS Cameras
- Romlik Steel
- Federation University – Mechatronics Department
- Parmaker

### CAPABILITIES

- Rapid iteration and fabrication of prototypes
- Low overheads
- Staff with both extensive industry and combat experience
- Experts at remote location/zero infrastructure surveillance

### DISCRIMINATORS

- GUS Chassis parts– Including Batteries, hull, motors, gears, suspension, wiring and deployment system 100% Australian, in Victoria
- Manufacture of the "GUS" UGV
- 100% Australian Owned and Operated

### QUALITY STANDARDS AND OTHER ACCREDITATIONS

- Australian Land Forces Innovation Award 2022 for GUS

### CONTACT DETAILS

PFG

### COMPANY OVERVIEW

PFG are a privately owned company with over forty years of history producing innovative solutions to a variety of industries, including Defence, locally, nationally and around the world. Our head office is based in Tasmania, Australia with advanced manufacturing production in Victoria, South Australia and Tasmania.

### CAPABILITIES

- Rotational plastic moulding
- Custom plastic fabrication
- Custom product design, development and manufacture
- Conductive polymer product builds
- 3D printing
- CNC routing
- Waterjet cutting
- Compostable toilets
- Fuel tanks

### KEY CUSTOMERS/PARTNERS

- Thales
- Downer
- Serco Asia Pac
- QLD Police
- WA Department of Fire and Emergency Services
- AGL
- Engie Australia
- Iplex
- Opal Australian Paper
- Arnotts
- Tassal
- Gippsland Water
- Vicparks
- City of Ballarat
- ICN
- Rhinoplay
- Dainichi Japan
- Tasmania Maritime Network
- University of Tasmania
- Latrobe City Council

### CAPABILITIES

- Marine and land-based aquaculture products
- Materials handling and safety
- Packaging and transport materials
- Steel fabrication and finishing
- Vacuum forming
- Food grade pallets and storage solutions
- Plastic hoppers and bins
- Playgrounds
- Recycled and waste bins

### DISCRIMINATORS

- Expert knowledge in the application of polymers to solve industrial problems
- In-house industrial design and tool fabrication to transform your idea into a finished product
- In-house recycling facilities to capture and minimise waste as well as providing a disposal option, closing the life cycle loop
- The largest range of plastic pallets in the Southern Hemisphere
- A diverse range of proprietary polymer products ranging from bins and spill bunds through to fuel tanks and compostable toilets

### QUALITY STANDARDS AND OTHER ACCREDITATIONS

- ISO9001-2015 Certified
- Certified AS/NZS 1546.2
- Member Rotational Moulders Association Australasia
- Member Gippsland Food and Fibre Association

# Pro Draft

## COMPANY OVERVIEW

Pro Draft is a Latrobe Valley-based company providing engineering drafting services and technical assistance to key industrial and commercial customers for over 25 years.

## CAPABILITIES

- Machine components, pressure parts, motor and pump systems and conveyor systems
- 3D laser scanning (in-house capability)
- Electrical and instrumentation design drafting
- Piping design and modelling
- Structural steel modelling and detail
- Major hazard facility - experience and compliance
- Printing and scanning services

## KEY CUSTOMERS/PARTNERS

- AGL - On-Going maintenance and capital works projects including:
  - Power Station, Major Unit-outage works
  - Bucket Wheel Dredger outage and refurbishment works
  - Bulk materials handling plant
  - Travelling Stacker No.5, major
- ExxonMobil
  - Plant modelling from Drone imagery
  - Non Destructive Test (NDT) Inspection Drawings
- Belle Banne Conveyor Products

## KEY CUSTOMERS/PARTNERS

- Australian Paper - Numerous recent projects including:
  - No.4 Paper Machine winder upgrade
  - Z35, 36, 37 Switchboard Replacements
  - Energy from Waste project
  - Aquaculture Project
- Energy Australia - On-Going maintenance and capital works projects including:
  - Morwell River Diversion works
  - DCS Network upgrade drawings
- IXOM
- Omnia
- RTL (Roche Thies Linfox)

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- Member - Australian Defence Alliance (AD)
- Member - Austmine
- Member - Housing Industry Association
- VBA - Registered Building Practitioner
- Member - Standards Association of Australia
- Member - VIC Chamber of Commerce and Industry

## CONTACT DETAILS

**Geoffrey Chilver**

## DISCRIMINATORS

- Experience in multiple CAD and modelling platforms
- 3D laser scanning (in-house capability)
- Scalable workforce

# Safetech

## COMPANY OVERVIEW

Designer and manufacturer of dock products, vehicle lifts, freight hoists, scissor lifts, pallet loading and handling equipment, stretch wrappers, and workstation cranes.

- Custom engineered heavy lift tables
- Vertical transportation – heavy capacity lift
- Vertical moving and materials handling specialization

## KEY CUSTOMERS/PARTNERS

- RAAF – vertical transportation and dock equipment
- Woomera – big scissor
- Australian Defence Force – materials handling equipment
- John Holland Group
- BHP Billiton
- Boeing – production-line crane systems
- Colonial First State Developers
- Scania
- Owner of Tieman Dock Products Division
- Partners with
  - Southworth (USA)
  - IFM Australia
  - Gorbel
  - Entrematic
  - Refuel International

## CAPABILITIES

- Custom-designed lifting solutions
- Products locally manufactured under supervision of in-house, specialised design engineers

## DISCRIMINATORS

- Bespoke engineering capabilities
- Design and engineering of largest double scissor lift in Southern Hemisphere
- Control systems integration
- Energy regeneration
- Software development – multilevel security

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- 2019 Manufacturer of the Year Victorian Manufacturing Hall of Fame
- National Winner Telstra Business Awards – 2006
- Holder of six Patents, 10 trademarks and several design registrations

## CONTACT DETAILS

**Chris White**  
sales@safetech.com.au

# ServiceStream Morwell

## COMPANY OVERVIEW

ServiceStream has been in operation for over fifty years in the Latrobe Valley and is a specialist engineering, construction and asset management contractor, providing services to the roads, water, power, industrial resources sectors.

- Rigging and scaffolders
- Boilermakers
- Pressure welders
- Fitters
- Electricians
- Truck drivers
- Specialist welders
- Schedulers
- Planning works coordinators and supervisors

## KEY CUSTOMERS/PARTNERS

- Engie
- AGL
- Energy Australia
- Australian Paper
- Ausworkwear
- Blackwoods
- HRL
- Coates Hire
- Hip Pocket Morwell
- Metalcorp
- S&S Equipment Hire
- Surdex
- Total Tools
- Vincents Painting
- Weldspot / BOC
- Wurth Australia

## CAPABILITIES

- Pressure piping in stainless steel, carbon steel and alloys
- Thin wall stainless steel piping and tubing.
- Pressure vessels to AS1210 and AP1650 thin and heavy wall tanks
- General structural steel and ducting
- Aluminium and exotic metal fabrication
- MMAW, MIG, TIG and STT welding machines
- Plate rolls
- Brakes press
- Plasma cutters
- Sheetmetal folders
- Stress relieving machines
- Hydrostatic testing units
- Pressure recorders

## DISCRIMINATORS

- 5 x 20T overhead cranes
- 7,000m<sup>2</sup> + of laydown area
- Rapid project execution (six to twelve weeks) to include pre-planning, resourcing and delivery
- Reach back into Lendlease Global's technology, machinery and intellectual property
- Resourced to pay outgoings prior to receiving client payments
- Source all projects through locally procured materials
- 4000m<sup>2</sup> + under roof workshop space

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- Welding Technology Institute of Australia (WTIA) Corporate Membership
- ISO 14001:2015
- ISO 9001:2015
- ISO 45001:2018

## CONTACT DETAILS

**Chris Row**  
Operations Manager

**Address** 60-64 Madden St Morwell VIC 3840  
PO Box 285 Morwell VIC 3840

**Phone** 0413 482 691

# Stable Engineering

## COMPANY OVERVIEW

Stable Engineering (Stable) is a Heavy Engineering and Pressure Systems Fabrication specialist. Stable was instrumental in helping to establish the Latrobe Valley Thermal Power Generation and Engineering Industry.

As a complete service offering we manage assembly and erection of the completed structures on site as well as carrying out mechanical maintenance; providing a cost effective end-to-end solution for our clients.

## KEY CUSTOMERS/PARTNERS

- SP Ausnet
- Zinfra
- Cross Yarra Partners
- Level Crossing Removal Authority
- Loy Yang Power Station
- Current Melbourne Tunnel Projects
- Energy Australia
- Siemens
- Babcock and Wilcock
- CB&I (Chicago Bridge & I)
- McConnell Dowell

## CAPABILITIES

- End-to-end design and construct with project management
  - Design, fabrication and final assembly onsite
- Mild steel, stainless and aluminium fabrication
- 50T rolling production line
- Industrial Abrasive blasting and painting
- Critical Path Specialist Welders
  - Pressure welding
  - Submerged arc welding
- Mechanical Maintenance specialising in high pressure "shutdowns"

## DISCRIMINATORS

- 40 + years in business, Delivering on time, Every time
- Critical Path and High Risk Steel Fabrication Specialists
- Ticket 10 Welding License with Supervisor on site
- Fronius and STT Welding Machines

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- ISO 9001 Certification by SAI Global
- Rated "Best in Industry" for Workplace Health and Safety by Workcover Victoria
- Ticket 10 Welding Supervisor
- International Welding Specialist

## CONTACT DETAILS

**John Buhagiar**

admin@stableengineering.com.au

**Address** 85 Firmins Lane, Morwell, VIC, 3840

**Phone** +61 3 5133 9955

**Mobile** 0412 513 445

# TAFE Gippsland

## COMPANY OVERVIEW

A Victorian Government TAFE covering the largest geographical catchment area in Australia. Services over 15,000 student enrolments annually, for training and business improvement solutions in engineering, oil and gas, new energy technology, electrotechnology, manufacturing and work health and safety licensing.

Courses offered in:

- Engineering (mechanical and fabrication)
- Electrotechnology (electrical and instrumentation)

Worksafe and industry recognised licensing:

- Construction and power industry induction cards
- Working in Confined spacescaffolding
- Rigging
- Dogging
- Forklift
- Mobile crane
- Elevated platforms

## KEY CUSTOMERS/PARTNERS

- Australian Paper
- AGL
- Ausnet
- ExxonMobil
- Energy Australia
- Esso Australia
- Latrobe Valley Machining Pty Ltd
- NBN Athena
- Anfra Pty Ltd
- Latrobe Valley Authority
- Wellington Shire Council
- Latrobe Regional Airport
- Latrobe City Council
- Future Energy Skills
- WorkSafe Victoria
- Energy Safe Victoria
- SAFETECH
- Gippsland Solar
- Victorian Electrical Supply - Industry Advisory Board
- The Skills and Jobs Centre's Community of Practice
- TAFE Community and Industry Engagement Network
- Victorian TAFE Association

## CAPABILITIES

- Training products and services, needs analysis
- Workforce development strategies
- Contextualised training and instructional design

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- National Provider Number 0417
- Accredited to deliver National High Risk Work Licences

## DISCRIMINATORS

- Full business immersion aligns workforce development with organisational strategy
- Tailored training outcomes for client/sector-specific versions of nationally recognised qualifications
- Access to a range of funding models, including state and federal funding grants and initiatives

## CONTACT DETAILS

**Paulette Ware**  
p.ware@federationtraining.edu.au

# Traralgon Industries

## COMPANY OVERVIEW

Founded in 1985, we are an experienced and successful Industrial contracting company specialising in fabrication, installation, and project management. Originally the company was established to deliver

- Insulation - all manner of thermal, cryogenic and acoustic insulation
- Cladding - sheet metal cladding

Since establishment, we have evolved and now successfully deliver turn key solutions for our client including but not limited to:

- Access Solutions (incl. platforms, handrails and scaffolding solutions including swing stage etc...)

## KEY CUSTOMERS/PARTNERS

- Opal (Australian Paper)
- Alinta Energy
- AGL
- Downer
- Gippsland Water
- Ventia
- Wood Group
- Beach Energy
- APA

## CAPABILITIES

- Speciality fabrication with carbon steel and exotic metal (including pipe spooling, pressure welding, Electrical cabinets, modular and prefabricated structures, various metal fabrication including stainless steel and aluminium)
- End-to-end project management
- Structural Steel Engineering and fabrication

## DISCRIMINATORS

- Thermal, cryogenic and acoustic insulation, installed to stringent specifications
- Cladding systems fabrication and installation to strict specifications
- Provision of Turnkey engineered solutions for projects and maintenance solutions providing value to clients enabling efficient delivery
- Skilled workforce with capability for labour hire services
- Site specific works and support, with the ability to mobilised anywhere in Australia with our portable workshops
- Shutdown works with critical path and timely delivery

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- ISO 45001 OHS Certification
- ISO 9001 Quality Certification
- Adherence to site specific or job specific welding procedures

## CONTACT DETAILS

# Victorian Testing and Inspection Services

## COMPANY OVERVIEW

VTS is a privately-owned and operated Latrobe Valley business. We provide inspection services as well as destructive and non-destructive testing.

## KEY CUSTOMERS/PARTNERS

- Bluescope Steel
- QANTAS
- Wood Group
- Surdex Steel
- Downer
- Fulton Hogan
- Gasco
- I-Test
- Gq\$
- Plater International Consulting

## CAPABILITIES

- Welding facilities
- Metallurgical analysis
- Macro, bend, break testing

## DISCRIMINATORS

- HV, HR, HB hardness
- Tensile test loads from 2 to 1000kN
- Full in-house machining facilities
- Charpy test to 269C

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- NATA Accredited laboratory to ISO17025

## CONTACT DETAILS

# Vincent Painting Contractors

## COMPANY OVERVIEW

Vincent Painting Contractors provides surface preparation and protective coatings that add value to customer assets. Recognised as a leader in industrial coatings application, Vincent Painting Contractors provide solutions through consultation and experience.

- Commercial and industrial painting
- Industrial coatings
- Abrasive blasting
- Painting
- Reports and analysis

## KEY CUSTOMERS/PARTNERS

- RAAF Base Sale – infrastructure upgrades
- Loctite Henkel
- Lockheed Martin - flight simulator coatings Halliburton
- CPB John Holland Thiess
- Alinta
- Siemens
- Lendlease
- Gippsland Water
- UGL
- Axioms Edge
- Hazelwood Power from 1995
- Hofmann Engineering
- Access Industrial
- BMC
- Lendlease
- Esterline Technologies
- Corporation
- Dulux International
- PPG
- Axiom's Edge
- OEG Partners
- TEK – Ocean
- Rezitech Belzona

## CAPABILITIES

- High temperature and niche ceramic coatings
- Marine maintenance
- Specialised coatings on sensitive equipment
- End-to-end job delivery

## DISCRIMINATORS

- Sponge blasting - 95 per cent dust-free blasting solution
- Specialised linemarking (eg. runways)
- Oil and gas maritime security clearance (MSIC maritime)

## QUALITY STANDARDS AND OTHER ACCREDITATIONS

- ISO 9001:2015
- ISO 14001:2015
- AS/NZS 4801:2001
- NACE – National Association of Coating Engineers Qualified Painting Inspectors NACE CODES: 4334
