

SUSPENSION SEATS 2023

FLEX range: lightweight (9kg) and protects against the heaviest impacts (10G)

FLEX is the heart of the shark suspension seat system.

It provides 225mm of ultra-smooth travel that is completely corrosion proof, light, and tough.

Combined with our stainless steel shock absorber, there are no pinch points or sharp edges on the 3-axis system making it safe in every way.

FLEX

Transforms any seat for a softer safer ride

FLEX-HD

Built for 140kg passenger weight . 6G crash rated - used with seat belt option

FLEXPOD ^{NEW}

Super light and super compact

Only 3.3kg!

Picture shows **FLEXPOD** fully compressed

FLEXPOD is the newest addition to the shark family which weighs only 3.3 kg, is 225mm high and is able to travel up to 150mm. The features packed into such a low profile suspension make this the perfect unit for saving space while saving your back
